Zabbix Manual **6**

Copyright notice . . . 6

1 Introduction . . . 6

1 Manual structure . . . 6

2 What is Zabbix . . . 7

3 Zabbix features . . . 7

4 Zabbix overview . . . 8

5 What's new in Zabbix 7.4.0 . . . 9

6 What's new in Zabbix 7.4.x . . . 17

2 Definitions . . . 17

3 Zabbix processes . . . 20

1 Server . . . 20

2 Agent . . . 27

3 Agent 2 . . . 31

4 Proxy . . . 34

5 Java gateway . . . 37

6 Sender . . . 41

7 Get . . . 42

8 JS . . . 43

9 Web service . . . 43

4 Installation . . . 44

1 Getting Zabbix . . . 44

2 Requirements . . . 44

3 Installation from sources . . . 53

4 Installation from packages . . . 68

5 Installation from containers . . . 85

6 Web interface installation . . . 94

7 Upgrade procedure . . . 100

8 Known issues . . . 112

9 Template changes . . . 123

10 Upgrade notes for 7.4.0 . . . 123

11 Upgrade notes for 7.4.x . . . 125

5 Quickstart . . . 126

1 Login and configuring user . . . 126

2 New host . . . 130

3 New item . . . 132

4 New trigger . . . 133

5 Receiving problem notification . . . 135

6 New template . . . 139

6 Zabbix appliance . . . 141

7 Configuration . . . 144

1 Hosts and host groups . . . 154

2 Items . . . 171

3 Triggers . . . 370

4 Events . . . 388

5 Event correlation . . . 391

6 Tagging . . . 397

7 Visualization . . . 400

8 Templates and template groups . . . 426

9 Templates out of the box . . . 426

10 Notifications upon events . . . 437
11 Macros . . . 485
12 Users and user groups . . . 499
13 Storage of secrets . . . 508
14 Scheduled reports . . . 515
15 Data export . . . 518
8 Service monitoring . . . 524
1 Service tree . . . 525
2 SLA . . . 528
3 Setup example . . . 530
9 Web monitoring . . . 534
1 Web monitoring items . . . 543
2 Real-life scenario . . . 544
10 Virtual machine monitoring . . . 551
1 VMware monitoring item keys . . . 553
2 Virtual machine discovery key fields . . . 571
3 JSON examples for VMware items . . . 575
4 VMware monitoring setup example . . . 579
11 Maintenance . . . 584
12 Regular expressions . . . 588
13 Problem acknowledgment . . . 594
1 Problem suppression . . . 596
14 Configuration export/import . . . 597
1 Template groups . . . 598
2 Host groups . . . 599
3 Templates . . . 599
4 Hosts . . . 616
5 Network maps . . . 632
6 Media types . . . 640
15 Discovery . . . 647
1 Network discovery . . . 647
2 Active agent autoregistration . . . 655
3 Low-level discovery . . . 658
16 Distributed monitoring . . . 711
1 Proxies . . . 712
17 Encryption . . . 720
1 Using certificates . . . 727
2 Using pre-shared keys . . . 733
3 Troubleshooting . . . 735
18 Web interface . . . 738
1 Menu . . . 739
2 Frontend sections . . . 746
3 User settings . . . 964
4 Global search . . . 968
5 Frontend maintenance mode . . . 970
6 Page parameters . . . 971
7 Definitions . . . 974
8 Creating your own theme . . . 974
9 Debug mode . . . 975
10 Cookies used by Zabbix . . . 976
11 Time zones . . . 977
12 Resetting password . . . 978
13 Time period selector . . . 978
19 Best practices . . . 979
1 Security best practices . . . 980
2 Configuration best practices . . . 987
20 API . . . 988
Method reference . . . 993
Appendix 1. Reference commentary . . . 1775
Appendix 2. Changes from 7.2 to 7.4 . . . 1781
Appendix 3. Changes in 7.4 . . . 1782
21 Extensions . . . 1782
1 Loadable modules . . . 1784

2 Plugins . . . 1793
3 Frontend modules . . . 1801
22 Appendixes . . . 1802
1 Installation and setup . . . 1802
2 Process configuration . . . 1859
3 Protocols . . . 1935
4 Items . . . 1960
5 Supported functions . . . 1992
6 Macros . . . 2022
7 Unit symbols . . . 2056
8 Time period syntax . . . 2057
9 Command execution . . . 2058
10 Version compatibility . . . 2059
12 Zabbix sender dynamic link library for Windows . . . 2060
13 Python library for Zabbix API . . . 2060
14 Service monitoring upgrade . . . 2061
15 Other issues . . . 2061
16 Agent vs agent 2 comparison . . . 2062
17 Escaping examples . . . 2063
23 Quick reference guides . . . 2065
Overview . . . 2065
1 Monitor Linux with Zabbix agent . . . 2065
2 Monitor Windows with Zabbix agent . . . 2069
3 Monitor Apache via HTTP . . . 2072
4 Monitor MySQL with Zabbix agent 2 . . . 2076
5 Monitor VMware with Zabbix . . . 2084
6 Monitor network traffic with Zabbix . . . 2087
7 Monitor network traffic using active checks . . . 2090
8 Monitor websites with Browser items . . . 2093
9 Monitor website certificates with Zabbix agent 2 (passive) . . . 2097
10 Monitor a network switch or router with Zabbix . . . 2102
11 Monitor Windows event log using active checks . . . 2109

Zabbix Cloud **2113**
Copyright notice . . . 2113
1 Deploy Zabbix with Zabbix Cloud . . . 2113
Introduction . . . 2113
Organization management . . . 2114
Creating a node . . . 2114
Accessing Zabbix frontend . . . 2116
2 Node configuration . . . 2118
